- **Fully responsive** design optimized for desktop, tablet, and mobile
- Focused on **UI/UX with clean code** and user-friendly navigation
- **GitHub repository & live demo:** <https://rihankabir.github.io/Jadoo-travel-agency-website/>

E-School – Online Learning Platform

- Developed a **responsive e-learning platform** showcasing online courses with clear layout and modern aesthetics.
- Presented program highlights: **1,500+ topics, 1,800+ students, 9K+ test tokens, and 2,000+ active learners** for instant credibility.
- Structured course listings including title, start date, seat availability, and an intuitive "Buy Course" call-to-action.
- Integrated a **testimonial section** to bolster user trust and engagement.
- Designed the interface for scalability and adaptability across devices, ensuring consistency and performance.
- Live link:-<https://rihankabir.com/E-School/>

Tinyone – App & Product Showcase Template

- Designed a **minimalist, responsive landing page** optimized for showcasing apps or products, with a clean hero section and intuitive layout.
- Crafted sections for **features, responsiveness, and contact form**, balancing brevity with visual clarity.
- Ensured **cross-device adaptability**, presenting a modern UI ideal for quick presentation.
- Used semantic HTML and CSS (likely with Bootstrap or plain styling) to keep the structure lightweight and maintainable.
- Live link:-<https://rihankabir.com/Tinyone/>

E-Shop – Frontend E-Commerce Prototype

- Developed a **responsive e-commerce landing page** with distinct navigation: Home, Products, Cart, and Contact.
- Designed a **dynamic product showcase**, featuring categories like *Fashion*, *Electronics*, and *Home & Living*, plus a “Best Sellers” grid complete with images, pricing, and quantity controls.
- Focused on **UI/UX clarity and mobile-first layout**, ensuring intuitive shopping flow across devices.
- Developed a **responsive e-commerce landing page** using **HTML5, CSS3, Bootstrap, and JavaScript**.
- Live link:-<https://rihankabir.github.io/E-Shop-Frontend/>

Responsive Fashion Store – E-Commerce UI

- Developed a **responsive fashion e-commerce landing page** using **HTML5, CSS3, Bootstrap 5, and JavaScript**.
- Designed a **clean, modern interface** showcasing featured products like men's t-shirts, women's dresses, and kid's hoodies.
- Implemented **interactive product cards** with hover effects and "Buy Now" buttons for enhanced user engagement.
- Highlighted seasonal promotions such as "Up to 50% Off – Limited Time" and "Summer Collection 2025" to attract customers.
- Integrated a **testimonial section** featuring customer reviews to build trust and credibility.
- Ensured **cross-device compatibility** with a mobile-first design approach.
